

INSTANTGO 5000 BUILT-IN USB-C CABLE

18W PD fast charging power bank

Power your life. Anywhere, anytime.

Recharge without losing connection, anywhere, anytime. The compact, high-speed InfinityLab InstantGo 5000 Built-in USB-C Cable power bank lets you safely charge two devices¹ at once. For a quick boost, it can get you to 50% in no time! And with a USB-C cable attached, you'll never be hunting for a misplaced cable. Only one wall outlet available? Smart pass-through charging lets you power up your phone and power bank at the same time. Thanks to auto protection you'll never have to worry about your devices. Plus it's made from recycled plastics and packaged in sustainable, earth-friendly materials.

Features

- ▶ Charge your device in the blink of an eye
- ▶ Charge two devices simultaneously
- ▶ Enough juice for one full charge
- ▶ Smart pass-through charging
- ▶ Slim, compact, pocket sized design
- ▶ Eco materials and packaging
- ▶ Integrated USB-C cable
- ▶ Advanced safety and reliability

INSTANTGO 5000 BUILT-IN USB-C CABLE

18W PD fast charging power bank

Charge your device in the blink of an eye

Power Delivery 3.0 ensures fast charging for your devices. We're talking recharged up to 50% in 40 minutes for a Samsung Galaxy S21². Yes, that fast.

Charge two devices simultaneously

One built-in USB-C cable. One extra USB-C port. You can charge two devices³ simultaneously with 18W PD⁴ fast charging. Power up smarter.

Enough juice for one full charge

The 5,000mAh battery has enough juice for one full phone charge⁵. Stay powered up on the go.

Smart pass-through charging

Only one wall outlet available? That's all you need to boost your phone and power bank at the same time thanks to smart pass-through charging⁶.

Slim, compact, pocket sized design

The compact design of the InstantGo 5000 Built-in USB-C Cable makes it a portable charger you can take anywhere.

Eco materials and packaging

This is a more earth-friendly power bank. With 90% recycled plastics and FSC-certified packaging printed with organic soy ink.

Integrated USB-C cable

A power bank and USB-C cable in one. Never again experience a desperate hunt for outlets or cables while you're on the go.

Advanced safety and reliability

The power bank features auto protection against overheating and features overcurrent/overvoltage conditions. It even protects against plugging in something incorrectly.

Disclaimers:

1. Extra cables sold separately.
2. Charging times based on SGS testing using built-in USB-C cable. Actual user experience may vary depending on many factors, such as model, battery size, temperature, humidity, and condition and age of the device.
3. Extra cables sold separately. When two devices are charging simultaneously, these devices may be partial charge instead of full charge due to the battery capacity of power bank.
4. Both built-in USB-C cable and USB-C port supports max. 18W PD charging. When charging two devices simultaneously, total max. output is 18W.
5. Based on SGS testing for an iPhone 12, using a fully charged power bank indoors under room temperature to charge a fully discharged iPhone 12 until it is 100% charged, and repeating the process until the power bank is out of battery. Actual user experience may vary depending on many factors, such as smartphone make, model, battery size, temperature, humidity, and condition and age of the device.
6. Wall charger sold separately.
